

## CONTAINER, DRAYAGE & TRANSLOAD

### Our container operations combine to create turnkey solutions

We have a thriving business transporting sea containers and domestic intermodal containers to and from the rail yards across Canada and select Canada and USA ports. We integrate these coast to coast drayage capabilities with transload services at our warehouse facilities in Halifax, Montreal and Vancouver:

**Coast to Coast Drayage** – Our trucking fleet is equipped with 20', 40' and 53' extendable container chassis (both tandem and tridem) and reverse B-Train chassis. We're flexible, knowledgeable and know how to work within your operating systems and reporting structures. Along with USA port cities on the Atlantic seaboard, we transport your containers to and from the ports and rail yards in:

- Vancouver
- Vancouver Island
- Calgary
- Edmonton
- Regina
- Winnipeg
- Toronto
- Montreal
- Halifax

**Transload Service** - Our specialized facilities are strategically located to reduce your rail demurrage and furtherance costs. Our Transload service offers:

- Efficient transfer of your freight from marine containers to domestic modes
- Pick and pack capabilities and local distribution services
- Great relationships and expertise in dealing with all port and rail operating authorities
- Extensive resources to facilitate the storage and furtherance of customers' shipments

Our ability to provide an end to end solution for your import and export requirements makes CDI an ideal partner for your overseas and domestic container requirements.

*// We provide coast to coast container services including the transport to and from rail yards and seaports and the more sophisticated logistics associated with the last mile of the supply chain. //*
