UPDATE: Closure and stoppages have been extended until end of 2021

Earlier this year Kicking Horse Canyon Constructors (KHCC) had implemented intermittent lane closures on Trans- Canada Highway through the Kicking Horse Canyon Phase 4 construction site throughout March 2021 and lane closures until April 10, 2021. KHCC also implemented overnight full closures in the Kicking Horse Canyon on Hwy 1 from March 29 through to April 10, 2021. This has now been extended to the end of 2021.

The Kicking Horse Canyon Project Phase 4 construction will also require an extended multi-day closure of the Trans-Canada Highway (TCH) east of Golden, BC.

***The overnight closures and stoppages have been extended until the end of 2021. Please click here for up to date information about closures:**

Due to the scheduled road closure, constraints will be placed on our operations in this area. With these constraints being expected to continue for a significant duration of time, we have been faced with a difficult decision regarding how service is provided in this area.

Due to a significant increase in costs associated to rerouting shipments, we will be implementing a **temporary** Road Closure Surcharge. The temporary surcharge is designed to assist with offsetting additional expenses.

Surcharge Amount: \$1.00/cwt with a minimum charge of \$10.00 and a maximum of \$200.00

The Road Closure Surcharge will apply if shipments meet the following criteria:

- **Place:** Shipments scheduled for transit and normally routed through Kicking Horse Canyon near Golden, BC, Highway 1.
- **Affected Areas:** Shipment originating in or destined to British Columbia, Canada

Delays are expected to occur through the designated area and we ask that you plan your operations around **one additional day** of transit time.

To help to minimize any other delays here are some helpful tips:

- Plan for an additional day transit
- Schedule pickups early in the day
- Have all orders ready on time for pickup
- Consolidate orders to be shipped
